▶ ULTIMATE VERSATILITY

Thanks to the variable free air delivery system, you can use one machine for various applications, including general construction, abrasive blasting, cable blowing, and powering hand-held pneumatic tools.

▶ MAINTENANCE MADE EASY

The lightweight polymer canopy opens a full 90 degrees, making it easy to access essential components. Central liquid drains simplify maintenance, reducing downtime. Plus, the standard 110% bunded base prevents liquid spills into the environment, giving you added peace of mind.

▶ MADE TO TACKLE ANY JOB

Boost performance and versatility on the job site with a wide range of options. Whether you decide to equip your machine with an aftercooler, lubricator, spark arrestor, generator, or other optional features, you can rest assured that no task will go unfinished.

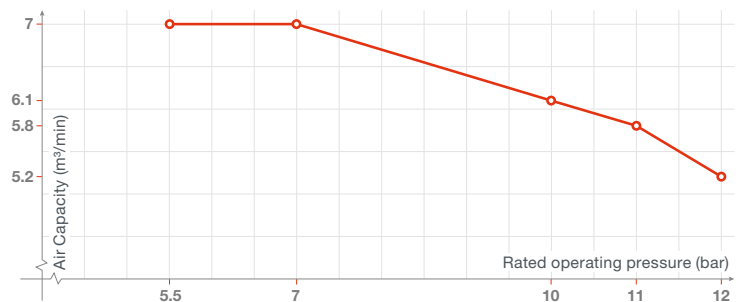

▶ FUNCTIONALITY ROOTED IN DESIGN

The PA12.7v Portable Air Compressor is designed with the operator in mind, offering several optional features that improve uptime and ease of use. Variable-height running gear, exterior protective elements, safety chains, a canopy-mounted hose reel, and more, allow you to accomplish more every day.

▶ FLOW AND PRESSURE UNDER CONTROL

With the FlexAir variable pressure and flow system, you can easily adjust the output air with a simple push of a button. The control panel is well-placed and intuitive to use, allowing you to get to work right away.
